<p><b>458</b></p> <p><b>Submitted By:</b> <b>Robert Fitzsimons</b></p> <p><b>CarTrawler</b></p>	<p>----- <b>SUBMITTER</b> -----</p> <p><b>Comment</b></p> <p>Inconsistent types for fees being returned between availability and book messages.</p> <p><b>Proposed Change</b></p> <p>The book message usage seems more correct, and is also used by the notify messages. So changing OTA_GroundAvailRS/GroundServices/Fees to be of a single optional type of GroundFeesType. Or adding newly a named element of GroundFeesType under OTA_GroundAvailRS/GroundServices, with the old Fees type being deprecated.</p> <p>----- <b>RELEASE NOTES</b> -----</p> <p><b>Schema File Name:</b> OTA_GroundAvailRQ</p> <p><b>X-Path:</b> OTA_GroundAvailRS/GroundServices/Fees</p> <p><i>-changed type</i> Changed the type on OTA_GroundAvailRS/GroundServices/Fees from GroundServiceChargesType to GroundFeesType</p>

<b>462</b>  <b>Submitted By:</b> <b>Robert</b> <b>Fitzsimons</b>  <b>CarTrawler</b>	<div>-----</div> <div><b>SUBMITTER</b></div> <div>-----</div> <b>Comment</b>  These target Ground Transportation usage. Add 'Boat' enumeration, some cities offer private water taxi services (Venice), or scheduled bus like ferry services (New York). Add 'Train' enumeration, some airports have direct train services which compete more closely with shared bus or coach services (London - Heathrow Express). Additional refinement of actual vehicle offered would be through VehSize Other_ mechanism. <b>Proposed Change</b>  Add 'Boat' and/or 'Train' <div>-----</div> <div><b>RELEASE NOTES</b></div> <div>-----</div> <b>Schema File Name:</b> OTA_Lists  <b>X-Path:</b> OTA_Lists/List_VehCategory_Base  <i>-added enumerations</i> Boat Train
